Non-Subscriber Shipment Tracking

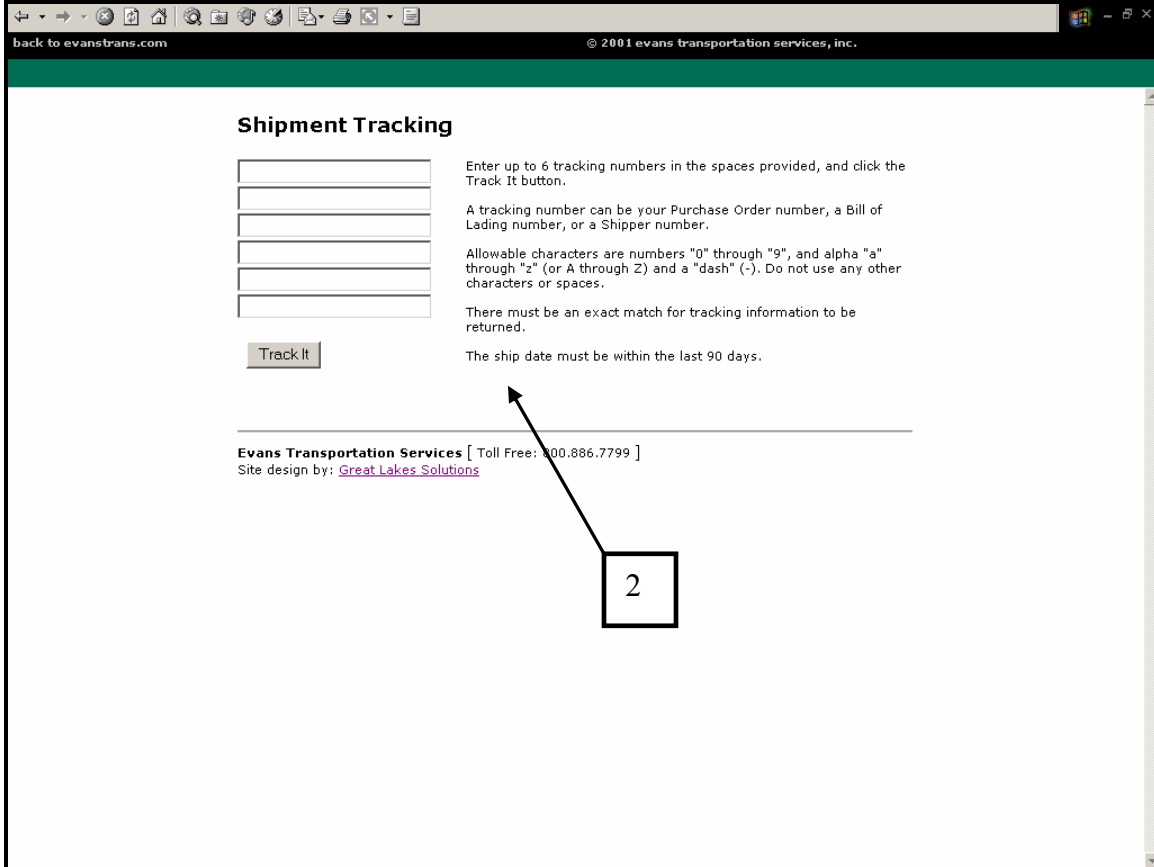

Overview

Evans Transportation Services has always made it easy for subscribers to get up-to-date shipment information. Now, shipment tracking is available for non-subscribers too! Anyone in the supply chain with access to shipment reference information can now query the database to obtain the status of a shipment.

Shipment Tracking

Enter up to 6 tracking numbers in the spaces provided, and click the Track It button.

A tracking number can be your Purchase Order number, a Bill of Lading number, or a Shipper number.

Allowable characters are numbers "0" through "9", and alpha "a" through "z" (or A through Z) and a "dash" (-). Do not use any other characters or spaces.

There must be an exact match for tracking information to be returned.

The ship date must be within the last 90 days.

An Example

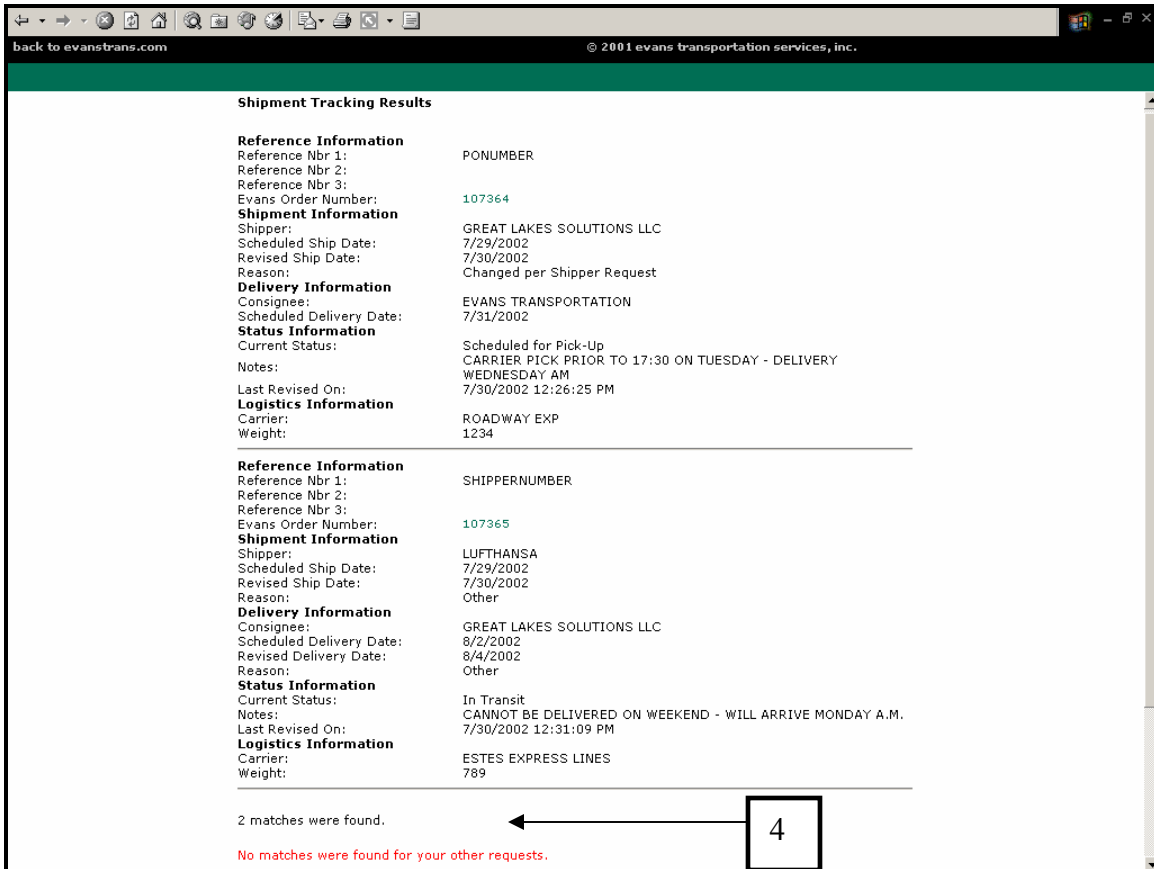

The screenshot shows a web browser window with the address bar displaying "back to evanstrans.com" and the copyright notice "© 2001 evans transportation services, inc.". The main content area is titled "Shipment Tracking". On the left, a box containing the number "3" has two arrows: one pointing to the "ponumber" input field and another pointing to the "Track It" button. The form consists of five input fields: "ponumber", "shippnumber", "anothernumber", and two empty fields. To the right of the form, there are instructions: "Enter up to 6 tracking numbers in the spaces provided, and click the Track It button.", "A tracking number can be your Purchase Order number, a Bill of Lading number, or a Shipper number.", "Allowable characters are numbers '0' through '9', and alpha 'a' through 'z' (or A through Z) and a 'dash' (-). Do not use any other characters or spaces.", "There must be an exact match for tracking information to be returned.", and "The ship date must be within the last 90 days." At the bottom of the page, it says "Evans Transportation Services [Toll Free: 800.886.7799]" and "Site design by: [Great Lakes Solutions](#)".

The Process

3. In this example, the user is attempting to obtain the status of three individual shipments. The numbers for these shipments are entered, and the user clicks on the Track It button.
